

CENTRALIS CAYMAN

YOUR PARTNER FOR GLOBAL CORPORATE SERVICES

Centralis Group is a market-leading outsourced corporate services provider. Our team of highly-qualified experts deliver innovative, effective solutions that will exceed your expectations.

About Us

We specialise in providing a wide range of corporate, treasury, infrastructural and debt administration support to multinational organisations, private equity houses, international fund structures, real estate firms and private individuals. With a team of highly-driven specialists, we are able to offer the best outsourcing and cross-border structuring solutions across diversified areas of business expertise.

Our Values

We appreciate that you are looking for more than just a service provider. You need a partner with exemplary technical know-how, a can-do attitude, integrity and unrivalled communication skills. Centralis delivers all of this and more, providing tailored solutions to even the most demanding clients.

We are committed to building lasting relationships and with this in mind, take the time to understand your business and values. Each client is different and our flexible, individual approach, with dedicated points of contact, allows us to deliver personalised solutions every time.

The Cayman Islands

The Cayman Islands are one of the world's leading financial centres. Highly regarded for their thorough and transparent regulatory regime and political and economic stability, the Cayman Islands continue to be a popular jurisdiction of choice for trust and corporate services. The banking system is closely supervised by the Cayman Islands Monetary Authority, helping to maintain the reputation of the Cayman Islands as a well-regulated and respected banking centre.

With such a strong reputation, the Cayman Islands attract many of the world's leading offshore professionals within the funds, trust and corporate services industry.

Centralis Cayman Limited provides comprehensive company management, corporate services and directorship services in the Cayman Islands to numerous international clients. These services include the provision of a registered office and assisting with the opening of local bank accounts. Centralis Cayman Limited is licensed to provide such services by the Cayman Islands Monetary Authority.

Centralis Cayman Limited is a proud member of the Cayman Islands Bankers' Association.

Our Solutions

As a market leader, our experience and expertise ensures that clients can rely on Centralis to provide a robust and tailored service when it comes to the management of their entities. From the establishment of a new entity to the implementation of financial transactions, our comprehensive range of services includes:

Corporate Services

- Registration of funds and foreign companies
- Company incorporation
- Provision of resident directors
- Annual renewals
- Provision of a registered office

Company Secretarial Services

- Assistance in arranging Director meetings in Grand Cayman (preparation of agendas, notices and comprehensive board packs)
- Drafting of minutes and resolutions arising out of Director and board meetings

Daily Administration

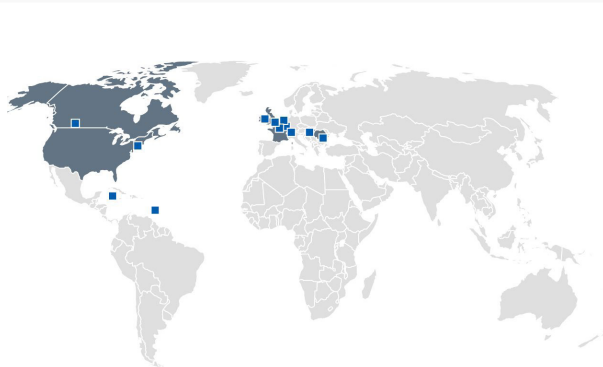

- Secretarial assistance (receipt/follow up of correspondence)
- Filing of documentation
- Assistance in administering and settling transactions, including local expenses

Why Centralis

- Senior Relationship Managers dedicated to individual markets
- Highly-qualified staff with professional qualifications in accounting, legal, tax and treasury
- Team-based structure with single point of contact
- In-depth understanding of management and control issues ensuring integrity of each structure
- Proactive and responsive approach to service delivery
- Best practice procedures and controls
- First class accounting systems and IT infrastructure
- Fixed or time-spent fee structure
- Multilingual staff
- Deep understanding of local and international legal and tax issues
- Long-standing relationships with local authorities and advisors

By understanding your business needs and building a project team that will best match those requirements, from both a technology and business perspective, we are able to produce exceptional solutions.
